

Josué Carlos Goulart dos Reis

Full-Stack Developer | Java · Spring Boot | React · TypeScript | Cloud & DevOps

Belo Horizonte, MG, Brazil • +55 (31) 98694-4904 • josuegoulart.engdesoftware@gmail.com • josuegoulart.vercel.app • github.com/JosueGoulart01

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building scalable, maintainable applications following Software Engineering best practices. Skilled in back-end development with Java and Spring Boot, delivering complete RESTful APIs with authentication (JWT + Spring Security), database integration (MySQL/PostgreSQL via Spring Data JPA/Hibernate), automated testing (JUnit & Mockito), and API documentation (Swagger/OpenAPI). On the front-end, develops modern interfaces with React and TypeScript, focusing on componentization, state management, and responsive design. Experienced with containerization (Docker), cloud deployment (AWS and Google Cloud Platform), CI/CD pipelines (GitHub Actions), and Kubernetes orchestration. Currently pursuing a Bachelor's Degree in Software Engineering at PUC Minas. Seeking a developer role where clean code, solid architecture, and real-world impact are core values.

TECHNICAL SKILLS

Languages	Java (OOP) · TypeScript · JavaScript · Python · C
Back-End	Spring Boot · RESTful API Design · Spring Security · JWT Authentication · Spring Data JPA · Hibernate · SOLID Principles · Clean Code · Layered Architecture · Microservices
Front-End	React · TypeScript · HTML5 · CSS3 · Tailwind CSS · Responsive Design · Component Reuse
Databases	MySQL · PostgreSQL · Relational Modeling · Normalization · SQL · ORM Integration
Cloud & DevOps	AWS · Google Cloud Platform · Docker · Kubernetes · CI/CD · GitHub Actions · Vercel
Testing	JUnit · Mockito · Unit & Integration Tests · Mock Objects · Business Logic Validation
API Tooling	Swagger / OpenAPI · Postman · API Versioning · RESTful Service Consumption
Tools & Methods	Git · GitHub · IntelliJ IDEA · VS Code · Scrum · Kanban · MVC · DRY · YAGNI
Automation	Python Web Scraping · Data Collection & Processing · Automation Scripts

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Personal Projects & Freelance)

2023 – Present

Independent — Belo Horizonte, MG

- Designed and developed complete RESTful APIs with Spring Boot, implementing clean code, design patterns, and scalable layered architecture (Controller / Service / Repository).
- Implemented JWT-based authentication and authorization with Spring Security, securing endpoints and managing user roles.
- Integrated MySQL databases using Spring Data JPA and Hibernate, applying relational modeling and normalization best practices.
- Wrote unit and integration tests with JUnit and Mockito to validate service and business logic layers.
- Documented APIs with Swagger/OpenAPI, enabling clear communication between front-end and back-end teams.
- Containerized applications with Docker and deployed to AWS and Google Cloud Platform using CI/CD pipelines with GitHub Actions.
- Configured Kubernetes for container orchestration and implemented API versioning strategies for production stability.
- Built front-end interfaces with React and TypeScript, consuming RESTful services and delivering responsive, accessible UX.

Administrative Assistant

Jan 2024 – Aug 2024

Agência Adventista de Desenvolvimento e Recursos Assistenciais (ADRA) — Belo Horizonte, MG

- Reviewed and validated financial documents (invoices and receipts), ensuring compliance and accuracy in records.
- Maintained organized financial archives supporting internal audit and reporting processes.
- Coordinated communication across suppliers, clients, and internal departments for efficient information flow.

Machine Operator – Industrial Mechanics

Feb 2022 – Jul 2023

Construtora RNV — Belo Horizonte, MG

- Operated lathes, milling machines, and conventional equipment to precise technical specifications.
- Interpreted technical drawings alongside engineering teams to optimize production processes.
- Logged and analyzed production and maintenance data, contributing to performance monitoring.

Administrative Assistant

Jun 2021 – Feb 2022

Crystal Tech — Belo Horizonte, MG

- Coordinated administrative routines, streamlining document handling and information flow.
- Prepared expense reports and managed office inventory with a focus on cost reduction.

EDUCATION

Bachelor's Degree in Software Engineering

Aug 2024 – Aug 2028 (expected)

Pontifical Catholic University of Minas Gerais (PUC Minas) — Belo Horizonte, MG

Technical Diploma in Industrial Mechanics

Jan 2022 – Aug 2023

SENAI – Américo Renê Giannetti Vocational Center — Belo Horizonte, MG

PORTFOLIO & PROJECTS

Personal Portfolio Website

2024 – Present

[josuegoulart.vercel.app](#) · React · TypeScript · Tailwind CSS · Vercel

Designed and built a personal portfolio with React, TypeScript, and Tailwind CSS, focusing on modern UI, full responsiveness, and front-end best practices. Features dynamic project showcases, clean component architecture, and scalable code structure — demonstrating full-stack capability through an intuitive, performant interface.
